ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 45-07588 with the following:

CONDITIONS OF APPROVAL

1. Pursuant to Section 42-4201A(3), Idaho Code, the Director may reduce the amount of water diverted for recharge purposes under this right even though there is sufficient water to supply the entire amount authorized for appropriation under this right.
2. Pursuant to Section 42-4201A(4), Idaho Code, to insure that other water rights are not injured by the operations of the recharge project authorized by this right, the Director has authority to approve, disapprove, or require alterations in the methods employed to achieve ground water recharge.
3. This right does not grant any right-of-way or easement across the land of another.
4. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 45N.
5. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
6. Permanent measuring devices which are capable of measuring the flow and the total volume of water injected into the wells must be maintained for each injection well.
7. The discharge of water into injection wells must be authorized by separate injection well permits.
8. Two injection wells are located in the NWNW, Section 6, T12S, R20E; one injection well is located in the NESE, Section 2, T12S, R19E; one injection well is located in the NESW, Section 36, T11S, R19E; one injection well is located in the SWNE, Section 26, T11S, R19E; one injection well is located in the SWSE, Section 26, T11S, R19E; and one point of injection into a gravel pit is located in the SESW, Section 36, T11S, R19E.
9. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.

Witness my hand this 14th day of January, 2005.

for **KARL J. DREHER**
Director
