**CUSTER COUNTY RESOLUTION
DISASTER DECLARATION FOR DROUGHT
2005-03**

RECEIVED
MAY 05 2005
Department of Water Resources
Southern Region

The current moisture conditions in Custer County are cause for serious concern as we begin another irrigation season with gravely inadequate water resources; the Custer County board of Commissioners hereby declares Custer County to be a disaster area.

The Big Lost River area is affected by the drought. Mackay Reservoir is at 52% of capacity. The snow pack is below normal. The Lost River Irrigation District will not be able to deliver water to the southern end of the district.

The rest of Custer County is also being affected. Snow pack levels on our major drainage's of Morgan Creek at 61%, Banner Summit at 52%, Mill Creek at 60%, and the Pahsimeroi drainage are well below normal levels. Domestic wells continue to go dry in areas that had previously not been affected. Beyond the immediate needs of our farmers and ranchers we must consider the overall economic impact on our county.

The Board respectfully requests that the Honorable Governor Dirk Kempthorn declare Custer County a drought area. And request that you submit our request to the appropriate state and federal agencies.

Passed by the Board of Commissioners of Custer County, Idaho, on February 28, 2005. Those voting "aye": 3. Those voting "nay": 0.

Signed by the Chairman of the Board of Commissioners of Custer County, Idaho, on February 28, 2005.

Lynn F. Hintze, Chairman
