RE: Water Right No. 11-07119

Dear Scott:

On April 16, 1998, you and I discussed some questions I had about your water use under permit 11-07119. I appreciate your help in clearing up matters related to the beneficial use of water developed in accordance with your permit.

In order to answer some of my questions, you indicated that you would send me a packet of information about the surface water irrigation system and the ownership of the land covered by the system. I would appreciate receiving the information soon in order to avoid any unnecessary delay in issuing your water right license.

Please submit the information packet, or a written request for additional time, within 30 days from today. If I do not receive anything from you within that time, your application to amend your permit may be denied and your water right license will be issued without the benefit of the information you wish to provide.

If you have any questions, please contact me at 208-327-7946.

Respectfully,
