

MEMORANDUM

Date: May 13, 2005
To: Water Right File 25-7545
From: Shelley Keen *SWK*
Re: Place of Use

While preparing this right for licensing, I modified the place of use recommendation from 377 acres to 369 acres. The first cut was to 372 acres, which was the size of the place of use shape the field examiner created using GIS software. The second cut to 369 acres resulted from an analysis of the SWNW of Section 27. The field examiner's shape included 35 acres in that tract, and Right 25-7546 already authorized 8 acres in that tract. After inspecting the aerial photography available, I reduced the recommendation for this right to 32 acres, making a total of 40 acres authorized for irrigation within the tract.
