Eastern Region

.....

This application was received in our office last August and was somehow filed in the vault when we moved. We found it last week and during review I found that the point of diversion is located in the wrong section.

The point of diversion shown on the map is located in NWSENE, S27 rather than NWSENE, S26. The source for this application does not even flow into Sec. 26.

Please get an amended application form and then re-advertise this one. Thanks. Kay
