

# MEMORANDUM

**Date:** June 01, 2005  
**To:** Transfer 71422  
**From:** Allen Merritt  
**Re:** Recommendation

---

This application was initially processed in parallel with the state office and advertised without protest. It has been amended incorporating withdrawn transfer 71437 which was initially advertised without protest. The amendment was processed in parallel with the state office. Since the initial advertising provided sufficient notice and the amendment only ties the two noticed transfers into a common PPU on the lands which were originally noticed and there is not hydrological change from the original transfers the amendment was not re-advertised. I recommend approval of the amended transfer as drafted.
