Subject: Revised Transfer Application (Dan Ward)

Dear Corey:

Enclosed is the revised application for water right transfer prepared on behalf of Dan Ward. This application proposes to transfer water from 22 acres of irrigated land in T.8S, R.21E under the remaining Marilyn & Vernon Phillips water rights to be combined with existing water right 36-7717 and proposed new well located in T.10S, R.22E, Section 12 as shown in Part 3. The purpose of the transfer is to provide additional water for the dairy.

As you recommended, the existing water right 36-7717 has been included in the transfer application to authorize its use from the proposed new well. The specific acres identified under the Phillips rights have been revised to include only those acres which were cultivated to allow the maximum consumptive volume for transfer to the new place of use. An additional map has been included identifying the potential place of use for all rights as required, and an LCO worksheet has been included estimating the average facility water consumption based on information supplied by Mr. Ward. The attached deed from the Jensen trust to Mr. Ward should be adequate for the ownership change of the existing water right 36-7717 within the transfer process.

I trust this will provide enough information for IDWR to begin processing the transfer. Please let me know if you need any additional information.

Sincerely,

Jason C. Helms, EIT

Enc. Application for Transfer (36-16291, 16293, 16295, 16297, 7717)
LCO Water Use Worksheet
Mitigation Plan & Transfer Spreadsheet Results.
Phillips WR Split Worksheet & FSA information.
Warranty Deed (Jensen to Ward)
Purchase/Sale Agreement (Kohtz to Ward)
