Dear Mr. Peppersack:

Thank you for taking the time to speak with me this morning regarding Permit No. 37-7844. I have received the preliminary order voiding permit number 37-7844 on April 25, 2005.

I am **Petitioning for Reconsideration** for Permit No. 37-7844. Reasons are as follows.

Findings of Fact:

8. On July 16, 1998 I never did receive the letter asking if I wanted to relinquish the permit.
11. On October 18, 2004 the letter the field examiner wrote; I never received.
12. On March 8, 2005 the field examiner reported "It seems clear that this diversion has been abandoned". The diversion was not abandoned; last year 2004 I moved the pump from the diversion to the other side of the road to conserve the loss of water. However, I left the power pole, the cement casing for the pump, wiring, piping, pressure gages, etc., at the site for a new efficient pump. That pump was ordered to be put in this spring from Silver Creek Irrigation.

I am requesting that I be notified when you send a field examiner out to the site in question, so that I may explain the circumstances.

Please send all correspondence to my Seattle home address:
