RE: Water Permit 37-07844, Claim A37-07844

Dear Ms. Jevne;

This permit (profile report enclosed) covers an irrigation pump that Clarence Mecham installed in the main channel of the Little Wood River. We would like to conduct a field examination on this system so that the final license can be issued on this development. To this end, I have talked to District 37-N Watermaster Bob Simpson. Bob told me that the pump was removed two years ago, and that this right was almost never available for delivery. If you are no longer interested in this development, please complete the enclosed forms to relinquish the permit and claim. This will not affect the early-priority rights that you have from the Little Wood River and reservoir. If you have questions, feel free to contact me.

Regards,

James E. Stanton
Sr. Water Resource Agent
