Subject: Transfer Application (William & Susan Millenkamp)

Dear Allen:

Enclosed is an application for a water right transfer prepared on behalf of William & Susan Millenkamp. This application seeks to increase the authorized place of use for their existing stockwater right 36-4157F to include lands recently purchased in T.7S, R.16E in addition to authorizing 2 new wells (drilling permits will be sought after transfer approval) as shown on the map in Part 3. A mitigation plan was not prepared since all current and proposed points of diversion are located within the same ground water model cell.

I have attached the Warranty Deeds for the Palmer and Thompson properties to demonstrate current ownership, although I understand Land Title and Escrow, Inc. may have already submitted these documents in association with the change of Ownership for the existing ground water right 36-7507 appurtenant to the Thompson property. Finally, a check has been included to cover the expected transfer processing fee.

Please let me know if any additional information is required.

Sincerely,

Jason C. Helms, EIT
