RE: Application for Transfer - William & Susan Millenkamp

Dear Jason,

Please find enclosed a water right transfer, in the name of William & Susan Millenkamp, that you recently filed with our office along with the \$250.00 filing fee (Brockway Engineering check #5619). The application is being returned so that several items can be addressed and clarified...

The application is in the name of William and Susan Millenkamp, yet only William signed it. Our water right records indicate that the water right is in both names, so please have Susan sign the application also.

Will all five of the wells identified in the transfer be tied together into a common system? Cindy Yenter of our Department and Water master of Water District 130 said that only two of the existing wells under right 36-4157F are currently reporting measurement information. The third well is a domestic well that supposedly is not tied into the system.

The application also mentioned pending transfer #71604, which as you know has been protested. Shouldn't transfer #71604 be amended to include the new wells and the additional places of use? If so, it will need to be re-advertised.

If you have any questions, or need further assistance, feel free to contact me at your convenience.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
