Re: Application for Transfer

Dear Mr. Lukehart:

The Idaho Department of Water Resources (IDWR) is currently reviewing your application for transfer of water rights to add a point of diversion to water right 63-2656A. After preliminary review of the application, the following items must be provided before processing can continue:

1. Warranty deed
2. Map showing the locations of the old and new wells.
3. Completed Part 1B of the transfer application.
4. Completed question 9, Part 2A of the transfer application.

I have telephoned your attorney numerous times for this information. He has been unable to contact you, which is the reason for this letter.

Please submit the requested information to allow final evaluation of your application to be completed. You may seek additional time to provide the information by making a written request to delay or interrupt processing. Your written response including the requested information, or a request for more time to seek the information, must be received within thirty (30) days of the date of this letter.

Without a timely reply, IDWR will issue a preliminary order to reject or deny the application. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Lori Graves
Sr. Water Resource Agent
