RE: 45-4095 and Transfer #71791 (Wastewater)

Dear Mr. & Mrs. Flores,

You recently filed a transfer on your wastewater right 45-4095. You originally claimed 1 cfs on 29.9 irrigated acres in the Snake River Basin Adjudication (SRBA). Carter Fritschle of our Adjudication Bureau recommended that right in a recent Preliminary Director's Report as 0.6 cfs on the 29.9 irrigated acres. According to Idaho Code the statutory diversion rate for irrigation is 0.02 cfs or 1 miner's inch per acre.
($0.02 \text{ cfs} \times 29.9 \text{ ac} = 0.6 \text{ cfs}$)

Transfer #71791 proposes to reduce the place of use to 18 acres, so unless you can provide us with evidence that additional diversion rate is necessary, approval of this transfer will result in the right being reduced to 0.36 cfs on 18 acres.
($0.02 \text{ cfs} \times 18 \text{ ac} = 0.36 \text{ cfs}$)

Please call the office if you have any questions. In the meantime, we will continue to process this transfer according to the guidelines mentioned above.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
