Re: Last Ranch LLC
Amended Application for Transfer of Water Rights

Dear Jim:

Please find attached an application for transfer prepared as an amendment to pending Transfer No's. 71422 & 71437. This amended transfer seeks to combine the pending transfers into a single transfer with the creation of a permissible place of use (PPU) for the water rights to allow more flexible management of the ground water irrigation system. The amended transfer also describes how a portion of the wastewater from the Aardema dairy (located East of the proposed PPU) is piped into the system via a diversion manifold located in the NWNE of Section 31 allowing diversion of the waste in order to provide treatment of the waste in addition to fertilization of the associated lands for improved crop yields.

If you have any questions or need additional information please don't hesitate to contact me

Sincerely,

Jason C. Helms, EIT.
