

MEMORANDUM

Date: March 23, 2005
To: Transfer 71849 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Transfer application proposes adding a second well (already drilled) as an authorized point of diversion to domestic water right 37-10987. Two wells are proposed to provide domestic water on property located approximately 5.75 miles north and 2.0 miles west of the Highway 46 and Highway 26 intersection at the south end of Gooding. The applicant recently drilled a replacement domestic well on the property and now wants to include both wells (original and recently drilled well) as authorized points of diversion. The application also proposes updating the ownership of right 37-10987 by removing Mrs. Hurd as a water right owner, since she has passed away (see copy of death certificate in file). The wells are located within the ESPA and Water District 130, but the new well is located within the same groundwater model cell as the original well.

- **Authority to File:**
IDWR records show the applicant as the current owner of the right involved with the transfer and copy of death certificate included with application removes Mrs. Hurd as a recorded owner.
- **Water Right Validity:**
The base right for the transfer is an SRBA decreed right.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No negative impacts anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
