Special Administration Areas : Trust Water Area (Trust Water Area)

Exempt: Y

Reason:

Doc Attached:

Explanation: Within Trust Water Area

4. jroberts 5/13/2005 Legal Notice Remarks

Comment: This application proposes to divert waste water from a pond constructed by the North Side Canal Company on the southeast end of the applicants property. When water is available the applicant will pump from the pond and cease to divert groundwater to a 56.7 acre half-pivot currently served by two existing water rights. Location is approximately 6.5 miles south and 1.5 miles west of the center of Wendell.

5. jroberts 5/13/2005 Comment/Analysis

Comment: This application proposes irrigation from a pond being constructed by North Side Canal Company on the applicants property to an existing 56.7 acre half-pivot currently being served by two groundwater rights. The pond will improve the water quality and reduce the amount of wastewater being discharged into the Snake River and save groundwater when wastewater is available in the pond. The applicant has canal shares on some of his property but these 56.7 acres are only irrigated with groundwater.
