

MEMORANDUM

Date: February 14, 2005
To: Transfer 71713
From: dcarlson
Re: transfer evaluation

This transfer proposes to move the point of diversion from the miners ditch to the central ditch. The central ditch gave its ok for this transfer. Miners ditch isnt an organized ditch company. The acre limit for 27-3c came from the transfer of 100 inches to about 100 acres. 27-4 has various transfers at different rates and the old decree does not have a pou listing to determine any acre limitation based on CFS. It was left blank, the Adjudication can add an acre limitation if they determine it would be necessary. Both ditches have conveyance loss that will offset the additional cfs over and above 1 inch/acre

Authority to File:

Applicant provided deeds and is the owner of record as far as SRBA claims and recommendations. daughter is also on the claims.

Water Right Validity:

This water right is being recommended in the SRBA in the spring of 2005. Forfeiture is not an issue.

Injury to Other Water Rights:

Watermaster will comment

Transfer will be advertised to determine any protests

Enlargement of Use:

There is no evidence of enlargement of use

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application
