RE: App For Transfer 70893

Dear Bob;

Our Boise office has reviewed the data that you recently submitted, and still has concerns about increased conveyance losses due to your proposed new ponds. You are adding almost 32,000 square feet of new surface area to this system, which will obviously increase the amount of water lost prior to reaching the Snake River. Water could also be lost through seepage from unlined ponds. In order for this transfer to be approved, you must show how much water will be lost and how you will mitigate for the increased loss. Please submit the required data by May 27 so that processing of your application can continue.

Regards,

James E. Stanton
Sr. Water Resource Agent
