RE: TEMPORARY CHANGE APPLICATION - DARRELL MCDONALD

Dear Mr. McDonald:

I have reviewed the second Temporary Change Application in your name which Doug Rosenkrance faxed to this office yesterday, August 14, 2000.

I need more information to understand the intent of the application. Temporary Change Application No. 5781 ("T5781") which was approved on June 30, 2000 allowed you to change the place of use of 1.66 cfs of right 34-07234 and 4.3 cfs of right no. 34-07028A from 306 acres in section 10, T3N, R27E, B.M. to 306 acres in parts of sections 4 and 5, T3N, R27E, B.M.

The new application appears to propose changing part of 34-07028A back to 145 acres in section 10, T3N, R27E, B.M. You need to provide the following information:

- How much of right 34-07028A is proposed in the new application and how the amount was determined. (The application does not identify the amount).
- An explanation why the water approved under T5781 is no longer needed as authorized under the transfer. The crops irrigated at both locations including
- The specific number of acres irrigated under T5781 and the amount of land which will continue to be irrigated under the remainder of T5781.
- The written recommendation of the watermaster including his statement that the proposed temporary transfer will not be an enlargement in use and will not injure other water rights.

Upon receipt of this information the department will further review the second application.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau
