RE: Season of Use

This morning I called Carla Carol at the City of Nampa and explained that to prevent enlargement of this right if it is changed to municipal purposes IDWR would have to either restrict the season of use to the standard irrigation season or limit the annual volume to the amount historically pumped. Ms. Carol asked for time to consider the matter. This afternoon Paul Raymond of the City of Nampa left me a voicemail message indicating that the water right will be "used seasonally." I interpreted his message to mean that the City of Nampa prefers to limit the season of use but not the annual volume for the right.

I recommended that the license be issued with the standard irrigation season for the area.
