Dan -

In response to your letters of May 19 and August 18, 2004, we have investigated current and past water use at Champion Homes relative to the application for permit for the facility. Based on this investigation, we plan to do the following.

1. File SRBA claims for domestic water rights 67-7124, 67-7126 and 67-7128, and for fire protection water right 67-7225. Water right 67-7125 is no longer associated with facilities owned by Champion Homes.
2. File a transfer for 67-7124, 67-7126 and 67-7128 to change the point of diversion to the new domestic well (NESW), and change the place of use to both the SENW and NESW.
3. File a transfer for 67-7225 to show place of use in the SWNW, SENW, and NESW.
4. Withdraw the pending application for permit. Is there a specific form for withdrawing the application for permit?

Mike Martin of this office is drafting up these document this week. We will send them to Champion next week, and hopefully have signed originals to your office the following week.

Thanks for your patience on this one (and others). Let me know if you have any questions.

Terry
