Subject: Application for Transfer of Water Right 63-8608 – Wilson Properties

Dear Lori:

In response to the attached email correspondence, I have enclosed an amended transfer page 1 and an amended map of the place of use (page 5) for the proposed transfer of 65 acres of water right 63-8608 to Foxtail Golf Course. The revised place of use includes the majority of the golf course and also a 3-acre practice area east of the parking lot. We have eliminated the driving range, ponds, practice green, and non-irrigated area from the place of use. The place of use is outlined on the attached aerial photomap. Supplemental irrigation for the driving range and practice green will be diverted under existing water right permit 63-12092.

Please contact me with any questions.

Sincerely,

Terry M. Scanlan, P.E., P.G.
