This application if approved will have the net effect of approving the pumping more total ^{water} than is called for on the existing license. In addition the property already has more water from Big Wood River than is allowed by State law.

The well at the north side of Base Line Rd. is open discharge into surface irrigation ditches and will continue to be unless the pump is changed or restricted. This will further deplete the ground water for others who must abide by state water laws.

If approved , The Department of Water Resources will be asked to approve 10-12 more transfers. See enclosed map.

Thank you for your consideration,
