RE: Water Right Permit 37-8553

Dear Mr. Linderman:

The Department of Water Resources acknowledges receipt of your letter dated April 22, 2005. In your letter, you requested a copy of the Proof of Beneficial Use statement submitted in 1994 for the permit referenced above. In addition, you asked for information regarding the time frame and procedure to get the permit licensed.

I have enclosed a copy of the proof statement as requested. Since an exam fee has been paid, the Department will need to schedule a date for a field exam to determine the extent of beneficial use developed under the permit. Our Southern Region office will contact you to schedule a field exam. Once a field exam has been completed, the Department can issue a license based on the results of the field exam up to the amount permitted. I am not able to provide an expected time for the field exam due to the number of other exams pending and limited staff resources. However, you can continue to use the water authorized under your permit as long as you do not increase the amount developed prior to the date proof was submitted for the permit.

Please feel free to contact me at 208-287-4948 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jeff Peppersack', is written over a horizontal line.

Jeff Peppersack, Manager
Water Right Permits Section
