Re: transfer evaluation

This transfer proposes to change the location of the Place of use and to move to 2 existing wells that were used for irrigation. Since we don't go to 2 digits, ie-- 0.25 acres, the place of use was changed to make a place of 101 acres.

Authority to File:

Applicant provided deeds, tax notices for the purchase of the old place of use and the new place of use.

Water Right Validity:

This water right was decreed in the SRBA in 2003. Forfeiture is not an issue.

Injury to Other Water Rights:

Inside the ESPA area and in North Groundwater measurement district.

Well in sec 32 is in the same cell. Well in sec 31 is an adjacent cell s38,44. model won't run.

Used cell s39,45 as the from cell, it's the cell to the east of the original well site. Effects less than 5%.

Transfer will be advertised to determine any protests.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
