

MEMORANDUM

Date: April 12, 2005
To: Water Right File 27-7430
From: Shelley Keen *SK*
Re: Licensing Review

PLACE OF USE

Using ArcView GIS, and 2002-2003 Spot imagery, I determined that the irrigated place of use is 133 acres as described by the field examiner, but the distribution among 40-acre tracts is slightly different than the examiner described.

SEASON OF USE

I applied the standard season of use for the area -- April 1 to October 31 -- to the license.

OVERLAPPING RIGHTS

There are no overlapping ground water rights. Prior to issuance of the permit, the place of use was irrigated with water from Snake River Valley Irrigation District. Since issuance of the permit, the place of use has apparently been irrigated with ground water exclusively.
