

MEMORANDUM

To: File 29-08047

From: Kay Walker 

RE: Licensing Recommendation

Date: August 29, 2001

.....

When I was creating a shape file for this right, I found the acreage was different than the examiner had listed on his exam. I created the shape to match the aerial photograph that the examiner used for his place of use. See a copy of the shape file I created below. Arc View was used to calculate the acres in each 40-acre tract.
