RE: Application for Transfer No. 71794

Gentlemen:

Please find enclosed a copy of a pending water right transfer application filed in the name of Roger Blass. The application proposes modifying two existing beneficial use claims, proposed to be recommended in the Snake River Basin Adjudication, from unnamed streams within the Twin Falls Canal Company service area. The application proposes to change the place of use and point of diversion descriptions to lands within Section 18, Township 09 South, Range 16 East in Twin Falls County.

Our Department would appreciate your written comments regarding the proposed use of water at the location described in the application.

Your prompt attention regarding this request would be appreciated in order to continue further processing of the water right transfer application. If after 21 days from the date of this letter the Department has not received your written comments, the Department will presume you do not oppose approval of the application and have no comments for the Department to consider. If you desire to file a formal protest against the approval of the application, your written protest must be submitted with the required \$25.00 filing fee.

If you have any questions, feel free to contact me at your convenience.

Sincerely,

Corey Skinner, PE  
Water Resource Engineer
