RE: Change in Water Right Ownership

Dear Water Right Owners:

In October 2002, the Department of Water Resources processed an ownership change in your name for Water Right 72-1, splitting the water right into two parts. Water Right 72-16627 was the part listed in your name for 4 acres and Water Right 72-16626 was the remaining part in the name of Philps for 176 acres. During review of these rights by the Department, errors were discovered in the way the original right was split. These errors have been corrected and are shown on the enclosed proof reports for the water rights. In summary, the diversion rates, acres, and conditions were changed slightly to reflect the proper splits based on your ownership.

Our review also revealed that there are other overlapping rights decreed to your property. Water Rights 72-4049 and 72-2147C include a portion (3.9 acres) of your property in the listed place of use. Proof reports for these water rights are also enclosed with handwritten changes to show the splits that would occur based on your ownership.

Section 42-248, *Idaho Code* requires that all persons owning or claiming ownership of a water right shall provide notice to the Department of any change in ownership of any part of a water right or any change in the owner's mailing address. A notice of change in ownership of all or part of a water right shall be accompanied by evidence showing the basis for the change in ownership and how the right is divided if the change divides the right among multiple owners. The filing fee for division of a water right is \$100 per water right to be divided. An ownership change form and instructions are enclosed for your use.

Please feel free to contact this office if you have any questions.

Sincerely,

Jeff Peppersack, Manager
Water Rights Permits Section
