

MEMORANDUM

Date: January 19, 2005
To: Water Right File 74-7165
From: eretelle
Re: combined use limits

74-7165, 74-34 and 74-35 share a PoD. These rights cover 636 acres. -34 and -35 were decreed with higher than .02cfs/acre, so no combined use limits were used on the diversion rate.

74-7165, 74-34, 74-35 and 74-912 overlap. 11 acres of 74-34 & 74-912 (limited to 76.4 acres) lie outside the PPU for this right. Irrigated acres under these 4 rights is 647 (636 PPU + 11)

acres were adjusted to 2 sig. figs per 40 from the FE and re-examination of ArcView information.

amendment is needed because PoD is different and section 14 was added to the Pou. P49 letter if not amended.
