

MEMORANDUM

Date: August 05, 2004
To: Water Right File 78-7301
From: E Retelle
Re: Telephone conversation

Paul Townsend called today to ask why his permit needed to be amended. He also indicated that the address we sent the amendment to was his old address. Both records were in the database and the wrong one must have been selected during license review. It is now the correct one. He does not have a copy of the permit to see what he is amending, so I offered to send him one and give him an extension on his P44 letter.
