1. kwalker 9/20/2004 Use of water

Comment: Pursuant to letter from right holder Twin Falls Canal Company water is used for pasture animals. No canal company water is used for animals confined to pens (sheep). Animals in pens use water from a small livestock well. This permit is primarily a supplemental irrigation well. If the livestock well should fail then they may use the well on an emergency basis.

2. MILLER 3/27/1992 Supplemental Water

Comment: The well is used when supplemental water is needed for irrigation and/or stockwater.

3. ANDREGG 3/31/1993 Proof of Beneficial Use Rcvd

Comment: Proof of Beneficial Use Rcvd
