

RECOMMENDATION OF WATERMASTER

Application for Transfer No: 71706
Water Right No: 36-15190
Application for Permit No: 36-16299
Applicant Name: Valley School District

Watermaster's Recommendation:

- a) ☐ I do not oppose approval of this application
- b) ☒ I do not oppose approval of this application if it is conditioned as follows:

Transfer-
(113) Mag meter or waiver required
No additional pods to be constructed

Permit-
(067) Approved measuring device
No additional pods to be constructed
Municipal use shall be non-consumptive and shall not include irrigation of lawn, landscaping, playgrounds, ballfields, etc.

- c) ☐ I oppose approval of this application(s) for the following reasons:

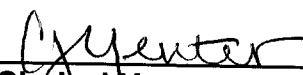

- d) ☒ Additional comment:

Irrigation diversions under the transferred right 36-15190 occur from the old well, and domestic uses are from the new well. Both pods have been inventoried by WD130 and withdrawals were reported from the new well for 2004.

Contrary to reviewer's comments, the new well is NOT located within Lot 6 (SWNWSW) Sec 31. The application map was created using gis data I collected, and accurately shows the old well to the west of the school building, and the new well the east, both within Lot 7 (NWSWSW). I suspect the information the reviewer found may have been from other program records and it is not correct.

Dated: March 30, 2005

Water District 130

Cindy J Yenter, Watermaster
