Remark: Application proposes appropriating 105 acre-feet of Marsh Creek water stored in a new reservoir recently constructed on Marsh Creek approximately 5.75 miles east and 4.0 miles south of Declo. The 105 acre-feet is "dead storage" in the bottom of the reservoir, below the irrigation outlet at the recently constructed dam. The application includes a mitigation plan that proposes not irrigating 38.6 acres of land this coming irrigation season to offset the 105 acre-feet of storage. The mitigation plan also states that if the reservoir is ever emptied and refilled, 38.6 acres of land will be identified at that time to serve as mitigation for refilling the reservoir. For specific details regarding the application, please contact IDWR Southern Regional Office at 208-736-3033 or visit www.idwr.idaho.gov with detail provided under "New Water Right Applications". Protests may be submitted based on the criteria of Sec 42-203A, Idaho Code. Protests against approval must be filed with IDWR, Southern Region, 1341 Fillmore St.-Suite 200; Twin Falls, ID 83301 with a protest fee of \$25.00 for each application on or before April 25, 2005.
