To Whom It May Concern:

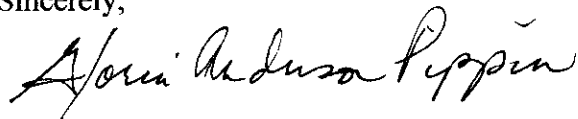

Attached to this letter, you will find a "Proof of Beneficial Use" for a groundwater well that my late husband (Mark Anderson) and I contracted to be drilled during the summer of 1976. Also attached are 3 receipts that, I hope, should prove that we carried through with our original intent. One is for the 5 HP pump that we installed in the well, the other is the well driller's bill, and the third is a bill for the installation of a water softener.

My interest in the disposition of our water rights was awakened recently when I attended a developer's plan that would involve land adjacent to mine. One of my neighbors implied that I was using water illegally. Therefore, I began to search for the legal documents that would prove him wrong.

What I found was the application for a water permit, but as I read the accompanying documents, I realized my husband had never sent in the "Proof of Beneficial Use". I can only plead ignorance for this oversight, because Mark handled all the details of obtaining permits and fulfilling the requirements. I cannot ask Mark, because he and one of our sons were killed in an airplane accident July 17, 1999.

I am sure you can understand what a shock this is to me. This has been my home since May of 1977. What is this place without water? Please give merciful consideration to this request to re-instate the original permit.

Sincerely,

Gloria Anderson Pippin
