Subject: Water Right Transfer to WSGC

Dear Paul, Bryce, Judy and Larry:

This letter is with reference to Paul Philbrook's letter of March 15, 2001 on the same subject (transfer of water right no. 63-09276 from the Gamble Well in Hulls Gulch to the Warm Springs Golf Course).

On behalf of the Idaho Botanical Gardens, I do not have any problem with the proposed transfer as long as it is conditioned as being supplemental to the supply from Boise City Canal Company, and also subordinate to existing rights in the golf course well (63-09661, 63-10241, and 63-10022).

If the transfer is approved, it will be necessary to revisit the existing agreement for sharing use of the golf course well and make some modifications. I have asked Paul Philbrook to provide a summary of past water use for review by all of us.

One item that does appear to need correction on the transfer application, however, is the description of the place of use at WSGC. The designation of sec. 12 (T. 3 N., R. 2 E.) should probably be changed to sec. 14.

Sincerely,

Keith E. Anderson
