RE: Application for Permit and Changes of Ownership

Dear Mr. Kelley:

A few years ago, you filed two water right ownership change documents to transfer the rights of Samuel and Barbara McFeron and Leo and Rowena Wager to you and Gayle Y. Kelley. The ownership change documents are being forwarded to our State Office in Boise for processing. When the rights are updated in our computer system to reflect the change in ownership, you will receive a letter confirming that the change has been made.

At the same time that you filed the ownership changes, you also filed a new application for permit to appropriate ground water for stockwater and domestic purposes. I am returning the application to you for some clarification/modifications as follows:

1. Is the home that you have identified for domestic use the same home covered by McFeron's right which is to be changed to your name? The point of diversion (well) identified under that right is within the SWNE. If this is the same house and the same well that McFeron's used for domestic use, a new application is not needed. You can simply file a transfer application to change the point of diversion description under the existing right to the SENW as you identified on the application
2. An amount of water (cubic feet per second) needs to be listed for each use. The standard amount for a home is 0.02 cfs and for the number of stock you have listed, 0.02 cfs would be sufficient.
3. Item 9 needs to be filled out to show the location of each use within the $\frac{1}{4}$ $\frac{1}{4}$ where the uses will occur.
4. A map is required showing the location of the well and the stockwater and domestic uses. The only map attached to the paperwork we received does not contain these identifications.
5. A filing fee is required. To cover the uses you have identified, the filing fee is \$100 (up to 0.20 cfs).

I am enclosing proof reports of the rights identified for ownership change for your records. If the application for permit filing is something you still wish to pursue, the above changes need to be made and then returned to our office. Please call if you have any questions.

Sincerely,

Charla Curtis

for Al Beardslee
Sr. Water Resource Agent
