

MEMORANDUM

Date: March 09, 2005
To: Transfer 71741
From: Pam Skaggs 
Re: Amended Approval

Vic Conrad of J R Simplot Company called upon receipt of the transfer approval document concerned about the condition requiring measuring devices on all points of diversion prior to diversion of water under the approval. The irrigation season will begin on April 1st in this area and it would be difficult to comply prior to this season irrigation. He stated that there was no problem complying with the condition prior to the next irrigation season. After discussion with Jeff Peppersack & Gary Spackman, it was decided to modify the condition.

An Amended Approval was issued on 03-09-2005 editing condition T17 to say "Prior to the 2006 irrigation season...." rather than "Prior to diversion of water under this approval...".
