Dear Ms. Gibson -

Enclosed is my completed "Proof of Beneficial Use" form and the \$50 check.

We never pumped from the creek in 2000, and so far this year I have pumped once, on 6-8-01. The water is very low so it won't last long.

We do not divert the creek. As the creek goes through our property it has a small waterfall. We have a bucket under the waterfall and pump water with a Homelite 1 1/2 horse gas operated pump.

The field examination report can be done anytime. We will be gone on a trip to Alaska from June 17 to July 4 - (our 50th wedding celebration.)

Thank You.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13951

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 01, 2001. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

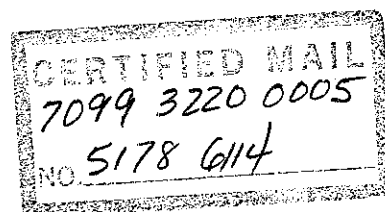

Sincerely,

Deborah J. Gibson, Administrative Assistant
