

MEMORANDUM

RECEIVED
JUL 21 2004
DEPARTMENT OF
WATER RESOURCES

TO: ~~File~~ 47-7779

THROUGH: Karilynn Townsend

FROM: Douglas Jones, Southern Adjudication Unit

DATE: 6/18/04

RE: Name/Address Change

The following is a summary of the fact stream for this water right number.

- 1) Permit 47-7779 lapsed in 1987.
- 2) Claim 47-7779 filed in 1988 as Beneficial Use with 1938 priority date and stockwater use. [This was an error by IDWR – should have been issued new number.]
- 3) Partial Decree for 47-7779 issued 1999; record ultimately moved to WR database.
- 4) Paper record for claim 47-7779 appears to be located at State Record Center, fiche of original claim available.
- 5) Name/Address change filed 4/20/04, forwarded to SO same day, and received at SO on 4/21/04. SO staff identified that underlying permit lapsed and returned form to claimant with no further action.
- 6) Claimant visited Southern Region 6/17/04 with questions of where to go from this point.

This matter was discussed with Jeff Peppersack and the following conclusions on processing the request were reached:

- 1) Decree 47-7779 should be renumbered to a new B47 number, "See Remarks" status assigned to decree record. ArcView/SDE data linked for new record.
- 2) Remark should be added to record for decree 47-7779 pointing to the new number. No modification to database record for permit needed.
- 3) Name and address for the new number should be updated per original Notice (attached to this memo).
- 4) Confirmation forwarded to water right holder.

Please contact Jeff Peppersack or myself with questions or issues that are not included here.
