1. dcarlson 8/12/2004 Field Report Narrative

Comment: well/pump 7.5 HP red jacket pump and motor to pressure tanks and 9 trailers.

the permit was issued with an inhouse use only. The application for permit didnot request

in house only. I would recommend removing the in house use only. Felt requires the trailer park

to remove the weeds and maintain a green area around the homes.

9 homes X 1.2af/a= 10.8 af.

2. E Retelle 9/23/2004 annual volume

Comment: Field examiner recommends 10.8af. The annual volume was licensed for 5.4 af. The permit is for internal use and the right cannot be enlarged.

3. E Retelle 9/24/2004 Government Lot

Comment: The application and the permit both had Lot 30 on the legal description for the PoD. In ArcView and on the government plat, the lot numbers in section 6 do not go up to 30 and the NESE is a regular 40 acre QQ that has no gov lot number.
