1. kwalker 10/25/2004 Amount of Water

Comment: In review of this application and overlapping right 15-7004 I found that the application was filed for too much water. License 15-7004 was issued for 1.30 cfs for the same 189 acres. This permit will be issued for 2.48 cfs to bring the 189 acres up to an inch per acre. Application was filed for 2.50 cfs so reduction will only be 0.02 cfs but will limit irrigation of these 189 acres to an inch per acre when used in combination with 15-7004.

I called the applicant to find out if they had used any Malad Valley Irrigation Company water on this property and Mr. Harding stated no, they only used the well to irrigate the property.

2. kwalker 10/25/2004 Permit Review

Comment: Application falls within open area in state, no moratoriums or water problem areas. Changed season of use to that recommended on our standard season map. Recommend approval.

3. kwalker 10/25/2004 Permit Holder

Comment: Region had entered the applicant as George R. Harding but then had entered Ralph Harding Ranch Inc. as the organization. When permit printed out it left off George R. Harding who was the applicant of record. I removed the organization name from entry so permit would print out correctly.

IDAHO DEPARTMENT OF WATER RESOURCES
Water Right Report 15-7004
