RE: Application for Permit 15-7261

Dear Mr. and Mrs. Rose:

In final review of the above application we found that we have questions regarding the place of use under this application. When the application arrived at our office there was no indication of where the stockwater and domestic places of use were located. I have attempted to show the locations of those places of use based on what was advertised in the newspaper. However, we would like you to confirm that we have correctly identified the places of use you intended to include under this application.

Enclosed you will find a layout which shows the lands to be covered under your irrigation use outlined in green, the area of your domestic use is shown in red and your stockwater use, as advertised, is shown in the magenta outlined area. If this is correct, please advise us at your earliest convenience so we can complete the final action on the application. You can reach me at (208)287-4953 by telephone, at kay.walker@idwr.idaho.gov if you wish to e-mail, or at the address shown above in the letterhead if you wish to send confirmation by mail. We cannot finalize the process until we are assured that we have correctly identified what you intended to include on your application. We will withhold further action regarding this application until we receive your response.

If you have any questions regarding this matter, please feel free to contact me at the above phone number, e-mail address or mailing address. I am sorry for the delay in approval of your application but we need to know we are issuing the permit for the places of use you intended.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
