Re: Application for Permit 15-7267

Dear Ms. Gleed:

In final review of the above referenced application for permit we found that we have a couple of issues that need to be resolved prior to issuance of your permit. I have left a couple of voice messages on your answering machine but have not heard from you so I am following up with this letter.

Do you have any shares from Samaria Water and Irrigation Company that are appurtenant to the 100 acres that you have applied to irrigate? Our records indicate that Samaria Water and Irrigation Company holds some water rights that may be appurtenant to the property.

We also found an application for permit No. 15-7221, in the name of Delon Atkinson, submitted in January of 2002, which was filed on some of the lands listed on your application. I noticed, on your application form, that Mr. Atkinson is the owner of the property and you are in the process of buying it from him. Please submit some documentation that shows you are in the process of purchasing the property such as a sales contract, or a warranty deed if the property has already changed hands. We are unwilling to proceed with approval of your application while Mr. Atkinson's competing application is still pending. You may want to have Mr. Atkinson assign his application to you so you could obtain an earlier date of priority. Water rights are delivered, in times of shortage, to senior rights first and Mr. Atkinson's application was filed over two years before the one you submitted. If you do not wish to pursue the application Mr. Atkinson filed, we will need him to submit the enclosed "Withdrawal of Application for Permit" form so that we can clear that filing from our records.

The Department will withhold further processing of your application for 30 days to allow submittal of the information identified above. Additional time may be granted by the Department upon receipt of a written request and sufficient justification for an extension. After that time, if adequate information is not received, the Department will issue a preliminary order to reject or deny the application.
