Subject: Partial Decree 34-515B

As we discussed earlier on the telephone, looks like IDWR reported the place of use on this recommendation correctly in Township 4N and the partial decree shows Township 5N. However, the Point of Diversion is located in 5N, but the Place of Use is in 4N.

Is trying to complete a change of ownership and transfer to continue development of the recreational pond involving this right and other rights from Gordon Player.

If you can send out an amended partial decree showing the correct place of use so the changes can be completed here at IDWR I would appreciate it. I have talked to the current owner and he would like a courtesy copy of the amended partial for his records, since the court must serve Gordon Player, and since IDWR can't change the ownership if the legal does not match.

Thanks again for all your help, will owe you big time!!!
