Dave,

I'm sorry about the listed POU of the Knight decree. I forgot that the legal was corrected in an amendment to the Decree. The amendment has it as the SWSW Sec 29, N1/2NW & SWNW Sec 32.

The map you remember from our meeting was of the proposed Almo Water Company service area and did not include the entire water district. The department could probably provide you with a map of the water district and include the points of diversion as I recommended them to the SRBA if Allen Merritt or Tim Luke believe that is appropriate.

I really have no answer for you regarding 373 and 374 as my recommendation will only be suitable after the SRBA decrees take effect. I have forwarded your email and excel attachment to Allen Merritt for his review.

Subject: Water Distribution

Vikie,

Attached is an Excel worksheet that I modified from the one you sent me. Please review and reply with comments. Some questions arise however:

- Until a ruling is published, I deliver the decrees in question 43-373 and 43-374 to Almo Water Co.?
- The Knight decree 43-383 does not match the Decreed Place of Use in the Jobe Adams Decree. Where is it delivered?
- How would one fill the Clark Ward 43-419 from 3 different creeks?

At a meeting of the Almo Water Co, I recall you having a map of the district -- would it be possible to get a copy?

Thanks again for your support,
Dave

4/30/2002
