RE: Permit No. 95-9150

Ms. Gibson,

Are we ever embarrassed. When we received the bid envelope August of 2003 concerning our water permit, we assumed our application went through and the rights were filed. I had taken care of filing the application a long time ago, so we were expecting some news. We filed it away.....without completely reading it's contents—obviously an extremely costly mistake, since I received your notice of "Proof Due Notice" concerning that same information mailed in August 2003.

We apologize for our negligence and are working on the information you need ASAP. We are very sorry and it will be in the mail THIS WEEK. Thank you for sending us a reminder.

Lance and Tracey Ragan
