RE: Application for Transfer No. 71185 (M & M Farms)

Watermaster: Kevin D. Lakey (WD 37),

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter. We are especially interested in your comments in regards to the moving of the point of diversion upstream and the effect it may have on other users with senior rights between the old and new points of diversion. (See enclosed map on last page of packet.) Hopefully, your records show delivery of rights with the same priority dates at the diversions shown on the map.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered during regional review. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
