RE: App For Transfer 70848, Leon R. Walker

Dear Chuck;

I have studied the agreement relating to the Gibby and Walker farms, and have discussed it with Jeff in Boise. Since neither Walker nor his wife signed the agreement, we need documentation showing the authority of Lynn Walker to sign. If he does not represent Mrs. Walker, then she also needs to sign either the agreement or the application. She does own one of these rights with her husband, so should be added as an applicant on the original application; I can add it, or you can submit a new front page.

As we previously discussed, you were going to find out if southeast Walker half pivot goes over into the SE/NW Sec. 34. If it does, I guess we need proof that he owns this tract. If it doesn't, then I suppose you will want to move the 1.5 acres to some other tract just to keep the acreage total intact.

You were also going to get proof of ownership for the land under the new pivot in Sec. 2 1/2. I understand that Gibby owns it, and Jeff said that the agreement (with proper authority) will allow the land to be irrigated under each transfer.

I think this covers everything that I had questions on.

Regards,

James E. Stanton
Sr. Water Resource Agent
