

PROCESSING NOTE

MEMORANDUM

Broken Arrow Farms Transfer #71617

To: Transfer Processing—SO & Western Reg.

From: J. Westra, Manager Western Reg. JFW

Date: 2/1/05

RE: **Protest Withdrawal/Permit Conditions**

The protestant agreed to withdraw the protest based on the following conditions:

- Measurement of flow and volume will be made of the 3 well diversions
- Measurements will be reported to the Department—at least annually.

As these are normal conditions relating to dairies, I would ask standard conditions be utilized if possible. If not a written form should be drafted and applied. These conditions preclude required ground water measurement/reporting in the Mountain Home Groundwater Management Area that will be implemented in the near future.

Ref: See Prehearing Conference notes in file.

Note—the protest withdrawal does not address specific reporting, but reporting is assumed part of the measurement —applicant agreed.

JFW 3/3/05 Discussed with J. Peppersack Condition #5, OK as written.
Will relay discussion to Pam S.
